1. DOCUMENT METADATA & SYSTEM CONTEXT

INCIDENT TRACKING ID: EIRF-2026-89412	**INITIAL SEVERITY LEVEL:** MEDIUM (Review Flagged)
CANDIDATE FULL NAME: Aarav Sharma	**INSTITUTIONAL STUDENT ID:** 2026042
REGISTERED COLLEGE EMAIL: aarav.sharma@bics.edu	**COURSE CODE & TITLE:** R526CS01T - Introduction to Computer Science
EXAMINATION TITLE: Introduction to Computer Science Mid-Semester Test	**EXAM SESSION WINDOW:** 08/11/2026, 15:30:00 IST — 08/11/2026, 17:15:00 IST
EIRF FORM SUBMITTED AT: 08/11/2026, 17:30:00 IST	**ADJUDICATION TIMELINESS:** Compliant (Filed within mandatory limit)

2. DUAL-PHOTO IDENTITY & BIOMETRIC VERIFICATION AUDIT

ENROLLED REGISTRATION

LIVE WEBCAM BASELINE

FACIAL COMPARISON & BIOMETRIC LIVENESS AUDIT:

Biometric Verification Status: MATCH_CONFIRMED (Facial Confidence: 98.6%)

Liveness Challenges: 3 of 3 (Turn Head Left, Turn Head Right, Neutral Face)

Candidate baseline photo confirmed matched against enrolled registration portrait. No secondary person or face substitution detected during active proctoring session.

3. EVIDENTIARY BASELINE & PROCTORING SYSTEM TIMELINE

TRIGGER TIMESTAMP (IST)	RULE VIOLATION / EVENT TYPE	DURATION	SEVERITY / SYSTEM STATUS
08/11/2026, 15:54:18 IST	FULLSCREEN_EXIT	3s	Moderate (Flagged)

CLIENT IP / NETWORK CONTEXT: 103.21.244.12	**BROWSER USER-AGENT:** Google Chrome 128.0.6613.120
OPERATING SYSTEM / PLATFORM: Windows 11 Education x64	**DISPLAY & HARDWARE SPECS:** 1920x1080
PAYLOAD CROSS-VERIFICATION: VERIFIED_MATCH	**BROWSER LOCK-DOWN INTEGRITY:** 1 exit(s), 1 switch(es) logged

4. STUDENT DEFENSE & EXTENUATING DISCLOSURES

CANDIDATE WRITTEN EXPLANATION (VERBATIM DEFENSE):

An automatic system notification momentarily stole application focus for approximately 3 seconds. The browser testing terminal was immediately restored to fullscreen.

FOCUS LOSS JUSTIFICATION: Antivirus background update banner	**FULLSCREEN RESTORATION CONTEXT:** Returned to terminal immediately within 3s
PERIPHERALS DECLARED: None. Standard integrated laptop keyboard and trac	**TECHNICAL EVIDENCE STATUS:** No technical files uploaded

[X] Integrity Undertaking Certified | [X] Encrypted Payload Matched | [X] Formal EIRF Signed

5. REVIEWER'S ANALYSIS & CREDIBILITY FINDINGS

CREDIBILITY ASSESSMENT (DEFENSE VS. TELEMETRY CORRELATION):
The candidate's explanation regarding focus loss correlates with the recorded telemetry timeline (1 Fullscreen Exit(s), 1 Tab Switch(es)/Focus Loss events). No concurrent unauthorized network requests or secondary monitor instances were detected. The explanation is determined to be credible and non-prejudicial.

INFRACTION HISTORY RECORD: First-time formal incident report in current academic term	**REPORTING TIMELINESS:** Filed within mandatory post-exam window
CAMERA / MIC INTEGRITY: Webcam active; no lens obstruction detected during session	**CANDIDATE COOPERATION:** Full questionnaire completed; local payload submitted

6. FINAL RESOLUTION & ACTION PLAN

OFFICIAL VERDICT: APPROVED — VIOLATION DISMISSED (PROVISIONAL ASSESSMENT GRANTED)

RESOLUTION CLASSIFICATION: Technical Glitch / Environmental Disruption	**REMEDIATION / PENALTY ACTION:** Provisional Assessment Restored & Validated

SYSTEM CALIBRATION & INSTRUCTOR NOTIFICATION:
System heuristics logged for threshold calibration. The candidate is granted provisional standing for course R526CS01T. Candidate must submit a signed hardcopy of this document to course instructor within 48 hours for final grade entry.

7. COMPREHENSIVE INCIDENT SYNTHESIS & CASE SUMMARY

During the examination for R526CS01T (Introduction to Computer Science Mid-Semester Test), proctoring telemetry flagged session events (1 Fullscreen Exit(s), 1 Tab Switch(es)/Focus Loss events). Upon comprehensive cross-examination of the candidate's Emergency Incident Report Form and verified payload records, the committee determined the disruption to be consistent with non-prejudicial technical interruptions. The candidate's defense has been validated, and the final verdict of APPROVAL has been granted for provisional score normalization.
